Spring 2018 M-STEP and MI-Access FI Science Tests

In Spring 2018, all students who were eligible to take the M-STEP science test should have been administered the required M-STEP Science Field Test in grades 5, 8, and 11. Participation rates in this field test will be calculated for 2017/18 accountability purposes.

The MI-Access science assessment was administered in grades 4, 7, and 11. Students in these grades with Individualized Education Programs (IEPs) that specified MI-Access—Functional Independence (FI) science should have been given the applicable MI-Access science assessment.

Students in grades 5 and 8 whose IEP required a MI-Access science test should **not** have been administered the M-STEP Science Field Test in Spring 2018.

During the **Answer Documents Received and Students Not Tested** window, students with an IEP in grades 5 and 8 who did not take a science test because they would have taken MI-Access if it was available should have **MI-Access Science** submitted as the reason for not testing.

(Continued on next page)

The Students Not Tested issues will be reviewed to ensure that the MI-Access Science issue is not held against the school's participation rate.

Schools will have the ability to review answer documents received and to submit reasons a student did not test starting June 11, 2018. Watch the weekly Spotlight for more information.

2018-2019 Assessment Schedules

- The same grade must test on the same day at the same time.
- Schools can administer tests for multiple grades in one day.
- All students except those who are absent (or testing in the accommodated window) are expected to test on the initial test day.

PSAT 8/9 for 8th Grade Webinar

If you were not able to attend the PSAT 8/9 for 8th grade webinar on May 22, the presentation will be posted on the [Michigan College Board web page](http://www.collegeboard.org/michigan) (www.collegeboard.org/michigan) no later than **June 11, 2018**.

Counselor Workshops

Recently, Michigan counselors or other school personnel may have received an email about the College Board's Counselor Workshops, which traditionally take place in the fall. These workshops provide information about College Board assessments and programs from a **national** perspective. The Counselor Workshops for Michigan will be scheduled in September of 2018. For the past three years, the College Board Michigan field team has also presented Implementation Workshops on the same days as the Counselor Workshops to provide information about the Michigan administration of the SAT Suite of Assessments as a part of MME.

This year, the College Board Michigan field team will schedule the Implementation workshops later. This will allow us to provide the most up-to-date and comprehensive information on the Michigan administration, including the most accurate information on the implementation of the PSAT 8/9 in 8th grade in the spring of 2019.

- Middle school educators should not sign up for the national Counselor Workshops – rather they should attend the Implementation Workshops that will be held later in the fall.
- High school staff should be represented at **both** kinds of workshops. Registration links for the Implementation Workshops will be in Spotlight once the scheduling is completed.
